**Crafter Sprinter ESL ELV**

**Universal Steering Lock**

**Emulator Simulator**

**No Programming Required**

**GS-ESL-ELV-EMULATOR**

## Mercedes Benz VW Crafter Sprinter ESL ELV Universal Steering Lock Emulator Simulator No Programming Required:

- > MB ESL ELV Universal Steering Lock Emulator is for USA Sprinter, Vito Volkswagen VW Crafter W169 W245 W202 W203 W208 W209 W210 W211 W639 W906 Dodge Freightliner Vans
- > ELV Steering Column Lock failure is one of the most frequent issues with cars of the Mercedes brand. ELV is a mechanical malfunction that can happen to the steering column lock on its own.
- > In the event of a malfunction, even if the vehicle key is in working order, the ELV Steering Column Lock cannot be engaged, preventing the functioning key from starting the car. Alternatively, the Sprinter ELV Steering Column Lock Emulator for the Sprinter, the Crafter ELV Steering Column Lock Emulator for the Crafter, and the Universal ELV Steering Column Lock Emulator for the Sprinter, Crafter vehicles, and any programming, may be used in this situation. Before it is created, the flawed ELV Steering Column Lock needs to be fastened directly to the location.
